

Plaas Delivers Safe & Efficient Paper Mill Services

In the pulp and paper processing industry, efficiency, reliability and safety are key to controlling expenses because they help minimize downtime and reduce the amount of energy required by critical processes. Plaas Incorporated helps paper mills be more efficient, safe and reliable, with detailed mechanical/piping services that limit leakage, tolerate high temperatures, reduce water consumption and provide safe & creative solutions to standard and custom mechanical problems. Plaas technicians deliver excellence in all areas of metal and piping fabrication as well as the general maintenance projects for the pulp and paper industry.

Mechanical/Piping/Tank Service Expertise

Plaas Experience

Plaas has over 40 years of mechanical and piping experience with paper mills across the country. Our company excels at moving and installing equipment and delivering standard and custom paper mill plant maintenance repairs. Plaas has the capacity to move most large equipment and the knowledge and skills in rigging, equipment setting, welding, mechanical and laser alignment.

Plaas Services

Plaas paper mill services include; welding, millwrights, tank repair specialists, high pressure piping, crane services and confined space rescue services. Plaas has delivered proven paper mill repair results to a variety of customers including; Boise Cascade, International Paper, Clearwater Paper, Costal Paper and Potlatch.

Minimize Leakage

By limiting water consumption, pulp and paper processing companies not only save on their water bills, they can also cut any costs associated with filtration and treatment processes — resulting in significant cost savings overall. Plaas helps with efficient and experienced technicians who get the job done right and tight.

Limit Machinery Downtime

Plaas Mechanical/Piping Services can help extend the life of pulp and paper processing applications and increase production by limiting unplanned downtime and identifying opportunities for process improvement.

Plaas Safety

Plaas places a high premium on safety and our on-site safety record shows the results. Copies of our ISNetworld rating as an "A" contractor (from ADM, Valero, Poet, Flint Hills Resources and Monsanto) and our Experience Modification Rate (.78) are available upon request.
