

Plaas Delivers Proven Tank & Terminal Services

Plaas Experience

Since 1974 Plaas has been providing the widest variety of mechanical and piping services to tank farms and terminals across the Midwest. Offering experienced welders, millwrights, tank repair specialists, high pressure piping and confined space rescue services, Plaas has delivered proven tank repair results to a variety of terminal customers including; Flint Hills, Valero, ADM, Hawkins and Marathon.

API 653 Tank Repair & Alterations

Count on the experts at Plaas for your API 653 terminal piping, storage tank or load rack repairs or new construction. In addition to standard or specialty tank welding repairs and alterations, Plaas offers tank and terminal facilities a broad range of repairs including; shell insert plates, shell lap patches, bottom lap patches, nozzle additions, puddle welding, bottom replacement and internal piping. As well as internal tank repair and piping, Plaas delivers safe and efficient services for installation of external piping and other tank attachments. Plus, Plaas has design/build/install/repair capabilities for stairways, handrails and platforms on tanks.

STI Tank Repair and Alterations

Plaas delivers results on all kinds of tanks including repair and alterations for UL-142 built tanks that are maintained to Steel Tank Institute (STI) standards. All repairs meet federal, state and local industry codes and standards for above ground storage tanks.

Confined Space Rescue Services

Plaas offers trained and certified CSR staff and CSR vans for mobile on-site Confined Space Rescue Services. OSHA requires CSR services and Plaas has delivered them to a variety of tank and terminal sites. With regard to OSHA 1910.146 high level/fall protection rescue and ANSI Z359 standards, Plaas' safety first Confined Space Rescue teams are qualified to manage your confined space and high level risk needs.

Tank Experienced Staff and Managers

As well as experienced craftsmen ready to deliver tank and terminal services 24/7, Plaas offers tank repair experienced managers and designers. Plaas recently bolstered it's tank repair staff with the addition of Michael Richardson (API Tank Inspector) and his wide array of tank accreditation experience and credentials.
